MAY TAKE HOLIDAY IN BUILDING NAVIES

Prospect of Agreement Between Germany and England Is Brighter.

BERLIN, Nov. 15 .- With Prince Ernest August actually established as the ruler of Brunswick, the first act of the drama of reconciliation between the Hohenzollerns and the Guelphs came to an end, and after an interval of two weeks the second act will take its beginning in the reichstag next week, when the chancellor of the emweek, when the chancellor of the empire, Herr von Bethmann Hollweg, will undoubtedly be subjected to an exceedingly sharp criticism by those who accuse him of having deserted a national cause by an ignominous surrender to the strong-minded chief of the Guelph party, who has not made a single concession either for himself or on the part of his son.

Opposition Is Futile.

As a matter of fact, the indignation which will be voiced in the reichstag will be a mere waste of words and the chancellor will not for a single moment worry over the possible results of his pelicy. The opposition which he is to meet in the reichstag will mean absolutely nothing to him since he succeeded in overcoming the far more dangerous opposition of the German crown prince, who has undoubtedly by this time had his eyes opened to the tricks of the Pan-Germanists and who will hesitate before he once more allows himself to be used as a catspaw.

Do You Pay for It Afterward?

If You Do, Just Carry a Little Stuart's Dyspepsia Tablet in Your Vest Pocket and a Big Meal Will Be Easily Laid Away.

Get away from the foreboding that every time you enjoy yourself heartily and eat a full meal, that you will pay for it afterward. There is no sense in your not enjoying every meal to the utmost. And you can do so without danger from a protesting stomach if you take the precaution always to have Stuart's Dyspepsia Tablets with you. Then if you over-eat, or eat something that disagrees with you, as the most that disagrees with you, as the most careful person will sometimes, one or two of these tablets will restore normal

"I Am Going to Enjoy This Meal For I Have a Stnart's Dyspepsia Tablet in My Vest Pocket."

Stuart's Dyspepsia Tablets are nothing more than a concentrated form of the natural secretions which the stemach employs in digesting food. And Stuart's Dyspepsia Tablets merely step in when the stomach is too tired or too sluggish to perform its functions prop-erly and supply a sufficient quantity of these digestive ferments to digest completely all food, under either acid or alkaline conditions, in the stomach.

It has long been known that the va-

ricus digestive fermeuts could be pro-duced as perfectly in the laboratory as in the stomach, but Stuart's Dyspepsia Tablets are the first attempt outside of certain hospitals, to utilize these dis-coveries for the benefit of sufferers from indigestion and kindred com-

The perfect freedom to eat what you please and as much as you please which Stuart's Dyspensia Tablets gives has won it thousands of friends who make it a constant vest pocket companion.

Germany Distrustful.

There is no longer any doubts that relations between Germany and England have materially improved and the aims of statesmen in both countries are now to find means of further strengthening the friendly feelings. The greatest obstruction in the way is a certain lack of faith in the honesty of the English statesmen. To a great majority of Germany today England is still "perfidious Albion" as much as ever. If it should prove possible to overcome this feeling, the recent proposal of the English first lord of the admiralty, Winston Churchill, concerning a year's holiday in naval construction will be welcomed by the whole German people, who realize that they must either go on strengthening their navy, which will eventually lead to a crisis, or reach some kind of formal understanding with England.

The statement made by Admiral von Tirpitz that the German naval programme has not been accelerated and that nobody has any such idea in mind proves that Germany is playing her cards fairly and openly and the statements made by Berlin correspondents of English Conservative and Unionist papers that Germany does not intend to give Mr. Churchill's proposals a single moment's consideration are absolutely untrue and intended only to deceive the voters of England for party purposes. There is no longer any doubts that

Suffrage in Italy.

The introduction of universal suf-frage in Italy has made little change in the political situation. The fears of the government that the first general elections on a new basis might result in a Socialistic and possibly anti-dy-nastic landslide have proven absolute-ly unfounded. The liberal-conserva-tive government's majority in the parly unfounded. The liberal-conserva-tive government's majority in the par-liament remains unshaken and on the whole the number of socialistic votes has decreased, though the party showed considerable gains in the large cities, particularly in Milan, Turin and
